

Lower Perrine Coulee Wetland Phase II 319 Project (Snake River CD)

Program	Water Quality Implementation
Lead Implementer	Snake River Conservation District
Funders	Idaho Department of Environmental Quality, Idaho Power Company, Snake River Conservation District, Southern Idaho Land & Trust , Twin Falls Canal Company
Other Organizations	U.S. Environmental Protection Agency, U.S. Natural Resources Conservation Service
Project Primary Contact	DeeAnn Scott (deeannscott@cableone.net)
Project Stage	Completed
Duration	2010

Natural Resource Projects & Practices ➤ Water Quality Implementation

Perrine Coulee watershed drains approximately 9,000 acres of irrigated farmland before entering the City of Twin Falls & the College of Southern Idaho campus. All the water can be diverted through cells and cleaned before entering the City of Twin Falls.

Please note: project location identification has either been authorized by property owners and/or project is not subject to confidentiality under USDA 1619 farm bill security provisions.

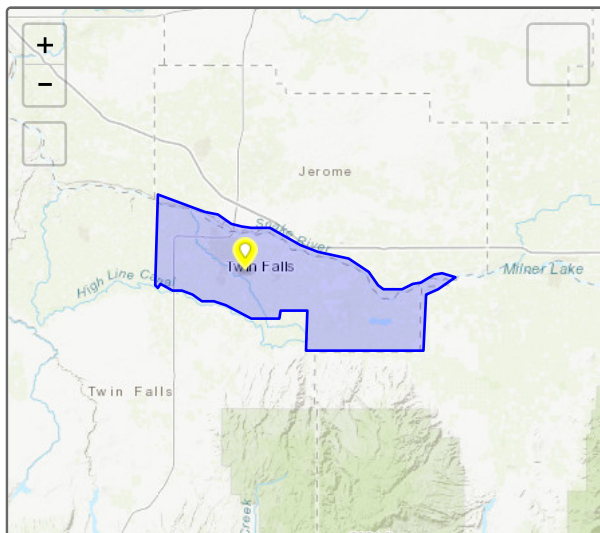

Key Accomplishments

- Pond (number): 11

Project Themes

- Agricultural Lands
- Habitat and Species
- Healthy Watersheds
- Water

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
